

THE POSTURE CARE CHAIR
COMPANY

PUSH NO MORE POWERED MOBILITY

PUSH NO MORE, FOR EASE, DIGNITY AND THE FREEDOM TO MOVE.

INNOVATION PATENT Australian Patent No. 2019100862

INNOVATION

Powered cordless 'no push' operation for up to 10km.

ABILITY

Assist carers/facility staff to transport without putting strain on their bodies.

CHOICE

Integrates into our tailor made Posture Care Medi-lift and Bariatric chairs.

INNOVATION, ABILITY AND CHOICE.

When independence, dignity and choice are present, people feel valued, confident and comfortable.

Our passion to create innovative solutions that improve an individual's life, has driven us to design a function that creates the freedom to move electronically, with the ease of **no more pushing**.

Our 'Push No More' mechanism can be built into our tailor made Medi-lift and Bariatric recliner chairs, removing the need for pushing while incorporating our innovative, patented recline and tilt mechanism that achieves a sensation of weightlessness by elevating the legs above the heart.

The chair is driven with a joystick, transporting people from A to B. This is a major innovation for the aged care industry providing an ease of use for carers, staff and the client.

Supporting people with mobility issues offers ease, dignity, enhances wellness and lifestyle, ultimately achieving comfort and happiness for both the users and carers/facility staff.

INDUSTRY BENEFITS

- Only requires one carer to operate.
- No heavy lifting.
- No stress on staff and clients.
- Easily drives around corners with capacity to turn on itself.
- Both automatic and manual braking.

POWER CONTROL CENTRE

- Lithium battery allows cordless operation for the equivalent of up to 10km.
- 4 different speeds.
- Recline, tilt into zero-gravity and lift the user.
- Movement function will operate while chair is reclined.

PUSH NO MORE

- 1st of its kind**, a comfortable **tailor-made** chair that has all the features and benefits that come with a Posture Care Chair.
- Add the Posture Care 'Push No More' and give yourself freedom to move.**

1st OF ITS KIND FREEDOM TO MOVE.
